MONTY MIRACLE

HOW TO USE

Before Applying Monty Cleaner

3 steps to success before the miracle happens!

Step 1 – What you'll need

- A garden spray pump bottle to apply Monty Cleaner.
- Rubber gloves to protect your hands.
- Protective eyewear.
- A garden hose for preparation & rinsing.
- Old clothing. Monty will damage your clothing if it comes into contact.

Step 2 – Weather Check!

Summer Months & Warm Weather...

During the Summer months, if the area you'd like to clean is very dry, please spray the area with a light coating of water. This helps your Monty Cleaner stay on the surface where you need it to clean rather than get absorbed into the ground.

MONTY MIRACLE

Rainy or Wet Days...

You can still apply Monty Cleaner on damp surfaces and get the desired results. If areas are swamped with excessive water however the effects of Monty Cleaner will be weakened.

Step 3 – Preparation

- Protect any other areas that you don't want to effect (lawns, plants, ponds, bushes etc.) Simply hose the protected area with water before and immediately after application.
- You can also protect areas with plastic sheeting if you prefer.
- Please note that Monty does have de-oxidant properties so, can cause damage to plants and aquatic life if precautions are not taken.
- Best cleaning results will be achieved on brushed areas.
- No need to jet wash, your Monty will be doing all the hard work, so you don't have to!
- Please keep family and pets inside whilst the cleaning is taking place, once you've rinsed down thoroughly after the 10 minutes, everyone is welcome outside again, it really is that quick!

MONTY MIRACLE

Fun Tips!

- Why not take a picture before & after picture so you can see the difference in minutes!
- Get someone to put the Kettle on, the next bit only takes 10 minutes!

Applying Monty Cleaner

Now the fun starts!

But please remember to use all recommended safety measures and protection from start to finish. If Monty Cleaner accidentally comes into contact with areas you do not wish to clean simply hose off.

- Pour your Monty Cleaner into your pump bottle, no need for dilution, it's ready to use.
- Apply Monty Cleaner to a small discreet area as a patch test. Rinse after 6 – 10 minutes and, if you're happy with the results, then proceed.
- Spray the organically dirty areas that you'd like to clean – Any external hard surfaces.
- Apply an even coverage to all the areas you would like to clean.
- To create the best uniform clean, using a soft brush, spread Monty Cleaner to reactive & ensure the best coverage.

MONTY MIRACLE

- For very stubborn areas, reapply your Monty Cleaner, work into the area for a few minutes (no need to scrub!) Allow 6-10 minutes on the surface.
- After 10 minutes, rinse off with a garden hose.
- Monty is completely neutralised, 100% biodegradable and can be hosed off onto the grass or into soil.
- Please remember to hose all greenery after you've hosed down your nice cleaned areas.

Now for the most important bit...

Put your feet up and bask in all the glory!

Please note that we cannot be held responsible for any damage to any external areas treated with Monty Cleaner. Care should be taken at all times and our guidelines followed for the best results. Please dispose of any unused Monty safely and always keep out of the reach of children and pets.

Your results

We'd love to hear how Monty Cleaner worked for you and see your before and after pictures. You can email them to hello@montymiracle.co.uk or feel free to post them on Social Media using hashtag #montymiracle.
